MONTHLY RECURRING CREDIT CARD AUTHORIZATION FORM

Brickyard Cove Marina processes recurring credit card charges on the 1st of each month. There may be a few days delay before this charge will appear on your credit card statement. Signed authorization form and valid credit card information must be received by Brickyard Cove Marina by the last day of the month prior to the charge to ensure that all information is entered before invoices are generated. For example: if you would like recurring credit card charges to start on July 1st, we must receive the signed authorization form and all credit card information by June 30th.

DO NOT EMAIL OR FAX ANY CREDIT CARD INFORMATION TO BYC MARINA FOR ANY REASON. Credit card information for recurring charges must be provided over the phone, via physical mail or in person. PCI DSS requirement 4.2 states that credit card information must not be captured, transmitted, or stored via email (and our fax comes through our email). This includes one or more of the following: full credit card number, expiration date, and the code (CVC) on the back of the credit card. If credit card information is sent to us via email or fax we are required to take several steps to purge our trash bins and remove any trace of the email/fax, however, these steps cannot remove it from the servers that it has passed through so we also recommend that credit card companies be notified anyone who faxes or emails us credit card information that credit card information has been compromised. Please help save us these steps and protect your credit card info by NOT emailing or faxing it to us.
